

EDWIN ELLIOT^{CO}

ESTABLISHED 1920

- Altitude, Pressure Control
- Surge Relief Valves
- Cushioned Check Valves
- Checktronic Pump Control
- Rotary Ball Valves
- AWWA Butterfly/Plug Valves
- Air/Vacuum Valves
- Anti-Cavitation Sleeve Valves

- Cast Iron & Stainless Steel Sluice Gates
- Stainless Steel Slide, Weir Gates
- Stop Logs, Flexible Flap Valves
- Cast Iron & Stainless Steel Flap Valves

- Custom mounting kits and adapter plates for valve and actuator retrofits
- Full-service in-house and field machining services for custom machining, fabrication, and component repair
- Line intervention services including hot taps, line stops, and pipe freezes
- Repair, reengineering, and emergency turnaround support for worn or damaged components
- Standard and custom hardware, fasteners, couplings, brackets, and drive components

- Electric ((IQ3-IQT3) Actuators
- Pneumatic K-Tork Actuators
- For Multi-Turn Applications
- For Quarter-Turn Applications
- For Linear Applications
- Handling Process Control and Isolation Applications
- Custom Actuator Adaptation Work

- Bi-Directional Knife Gate Valves
- Re-Packable Under Line Pressure
- High Cv Values (Lower Operating Cost)
- Zero Leakage (Bubble Tight Shut-Off)
- Transverse Seal (No Packing Gland)

- Portable ventilation solutions for confined space entry and tank work
- Improves air quality and removes gases in wet wells and vaults
- Rugged, reliable units designed for municipal environments Supports
- OSHA compliance for worker safety during maintenance and repair
- Easy setup and transport for quick deployment
